## Participation fee

### *Why a participation fee ?*

LEADER France is a non-profit association, whose objectives during this transition time include supporting LAGs with the implementation of the current LEADER programme.

Our only resources are financed by the LAGs membership fees, which is the guaranty of our independence.

This participation fee partly covers the catering and logistic expenses. Without this help, we wouldn't be to offer a such event.

These costs, transport and accommodation expenses are covered by the 19.4 measure. You will be given a receipt by the association.
