

Community	Contact Person	Priorities	Project Idea / Partnership Need
Dobroslav Village Territorial Community	Tetiana Ionova +380961535622	• Local self-government and administrative capacity • Digitalization and public services • Education, culture, youth policy, and sports • Energy efficiency, climate resilience, and local economic development	Interested in long-term municipal partnership, experience exchange, and joint international project preparation. Ready to share the community's experience in operating during wartime, crisis management, and ensuring service continuity.
Starokozache Village Territorial Community	Pavlo Osmateskul +380688784436	• Strengthening local self-government and administrative capacity • Healthcare • Water supply and sanitation • Waste management	Interested in partnership for the development of administrative services, healthcare, social services, water supply, and waste management. Has several concrete project developments in line with the Community Development Strategy for 2026–2030.
Biliaivka City Territorial Community	Maryna Pidmazko +380968066245	• Water supply and sanitation • Environmental protection and wastewater treatment • Energy efficiency and renewable energy sources • Digitalization and modernization of communal infrastructure • Healthcare and rehabilitation	Has three specific project concepts: modernization of sanitation systems and wastewater treatment facilities; modernization of the water supply system using energy-efficient technologies and RES; hospital modernization, rehabilitation development, and energy efficiency. Interested in municipal partnership, exchange of experience, technical visits, and joint projects.
Fontanka Village Territorial Community	Olha Litvina +380953097150	• Local self-government and institutional capacity • Energy efficiency and infrastructure modernization • Tourism, culture, and local identity development • Education and youth cooperation • Local economic development, SME support, and entrepreneurship	Interested in broad municipal partnership and exchange of experience. Key areas of potential cooperation: enhancing the institutional capacity of local self-government bodies, energy efficiency of public infrastructure, development of tourism and ecotourism, cultural and youth exchanges, support for local businesses and producers, and investment cooperation. The community possesses significant natural and tourism potential thanks to the Black Sea coast, the Velykyi Adzhalyk Estuary, and the "Luzanovskyi Forest" nature reserve.
